on the sports field than in the classroom.

You're competitive and single-minded, but

you're also a cooperative learner who likes

motivating other people.

You're gregarious and fun to be with. You get into

class because you can't stop talking. You particularly like interaction with other people at school. You have a gift for languages and you enjoy taking part in interactive activities. You're a team-player and a communicator.

You're lucky you're naturally bright. You're curious about the world, and you <u>soak up</u> knowledge like

a sponge. You have a thirst for knowledge, and you excel at subjects that many other students struggle with, such as Maths and Sciences. You're a <u>deep thinker</u> and an analytic learner.

Do the questionnaire and check your score. Do you get the same answer as in Exercise 3?

WHAT KIND OF STUDENT ARE YOU?

Do our questionnaire and find out.

Ken Robinson is an educationalist. In his book The Element, he interviews people who have made a successful living doing what they love. This is Gillian Lynne's story.

to fail all her exams. Her teachers
would complain about her disruptive
behaviour; she was always fidgeting
and handing in her homework late.
They told her mother that she had a

15 learning disorder. So Gillian's mother took her to see a psychologist and listed some of the problems: she never pays attention in class - she'll get up and move around instead of listening

²⁰ to the teacher; she's always disturbing people and her homework's always late. Finally, the doctor turned to Gillian and said, 'Gillian, I need to speak to your mother privately

A Use your imagination

B Make up a dramatic narrative

C Learn how to give a speech

D Imagine what each item tastes like

E Visualise the items in a familiar place

Memory tips

Greek philosopher Socrates famously said, 'Learning is remembering.' So how can we improve our memory? The key is to use your imagination. Here are two ways of remembering a shopping list of eight items:

First, imagine a huge loaf of bread and suddenly, coffee squirts out of the top and makes a fountain of dark brown liquid. After a few seconds, the dark brown changes to white yoghurt. The yoghurt forms a river and it goes under a bridge – the bridge is a steak. Some black and green olives are crossing the bridge and some big brown eggs are chasing them. The olives hide behind a big carton of orange juice. You lift an olive to your mouth to eat and it turns into an onion which tastes horrible. That's it! You've reached the end.

Think of your home and get a mental image of the rooms in your house. Then put the items on the list, one by one, in specific places in the rooms. For instance, you imagine the bread on the doormat as you come in the door. Then you go into the living room and the coffee is in front of the television, the yoghurt is on the sofa and the steak is stuck to the mirror on the wall and so on; it's all about making personal associations – you get the idea. This method isn't just useful for memorising shopping lists. Some famous people have used it to give a speech without using notes.

- 3 In pairs, test your memory. Follow the instructions.
 - Make a shopping list of eight items and give it to your partner.
 - Study your partner's list for sixty seconds using one of the methods in the text.
 - After sixty seconds, take it in turns to recall your list. Did the memory tip help?

 - C Traditional education models assume that children are empty vessels who need to be filled with content, but Dr Mitra's experiments prove that wrong.
 - D 'Computers cannot replace good teachers, but they can get a high standard of education into the schools where they are needed most,' he says.
 - **E** He then left them to use it unsupervised and found that after only a month, the children had taught themselves how to use the computer and go online.

Lighting the spark of Learning

Dr Sugata Mitra, Professor of Educational Technology at Newcastle University, England, thinks it's time for a radical shake-up of education. He believes that the present education system is outdated because

it doesn't prepare children for the jobs of the future, which have changed thanks to technology. 1 Dr Mitra calls this methodology 'Minimally Invasive Education' and explains that it is based on the idea of using children's natural curiosity and then

10 providing an environment where they can learn on their own.

Dr Sugata Mitra

1999 he decided to test his ideas and set up an experiment, now known as the Hole-in-the-Wall Experiment, with children living in slums who didn't have 15 access to good teachers. At the time he was working in New Delhi and his place of work shared a wall with a slum. He cut a hole in the wall between his work premises and the adjoining slum, and placed a computer with Internet access in a kiosk where children could use it freely. ² . He then 20 repeated the Hole-in-the-Wall experiment in a village with no Internet access. This time he left the computer in a kiosk with just a few CDs in English and when he went back after

two months, the children surprised him by asking in English for a faster processor and a better mouse! When he asked how they knew all this, they said that they taught themselves some English so that they could understand the machine that only talked in English.

The project was so successful that it became the inspiration for the hugely successful film, Slumdog Millionaire. The film was 30 based on a book entitled O&A by Vikas Swarup. Swarup said that his book was inspired by the Hole-in-the-Wall experiment. He said, 'I realised that there's an innate ability in everyone to do something extraordinary, provided they are given an opportunity.

In 2010 Dr Mitra initiated another project for children in India – this time using a Skype connection. Mitra explains: 'When I last visited India, I asked the children what they would like to use Skype for most, and surprisingly they said they wanted British grandmothers to read them fairy tales.' Dr Mitra recruited a British woman to spend a few 40 hours a week reading to the children and set up webcams so that a life-size image of the storyteller is projected on to a wall in India. He now has 200 volunteers reading to the children via Skype. He also has retired teachers and educators regularly teaching slum children in India by 45 Skype. 3 Hundreds of children in India are now learning from 'Skype Grannies', but Dr Mitra's plan is to create a School in the Cloud using retired teachers as a resource for children all around the world to tap into.

In 2013 Dr Sugata Mitra was the winner of the \$1 million TED* prize for his revolutionary work with Indian children and for showing the power of 'Minimally Invasive Education'. Dr Mitra believes that technology should be seen not as a threat to teachers, but as an asset. 4___ With the prize money he will continue to fulfil his wish of building a School in the Cloud, where children can find information and learn from one another.

- 'I've stopped eating chocolate.' 'Really? Why did you stop to buy some on the way home?'
- 'I tried to convince Jane but she doesn't want my advice.' 'Why don't you try talking to her best friend? Jane always listens to her.'
- You use feel, hear, see, watch + object + -ing to describe ongoing actions or the same verbs + object + infinitive without to to describe finished actions. I watched Dan playing football and saw him score the winning goal.

Verb patterns

You can use these verbs in reports to make recommendations and suggestions. Note the verb patterns.

• advise + person + to-infinitive

You are advised to check the website.

• intend + to-infinitive

The committee **intends to contact** all members.

• cause + noun/pronoun + to-infinitive

Poor weather caused us to reconsider our plans for a barbecue.

- suggest + that + a person + to-infinitive/-ing The head teacher **suggests that we donate** the money to charity. The head teacher **suggests donating** the money to charity.
- recommend + that + noun + infinitive without to
- We recommend that the barbecue takes place in August.
- decide + to-infinitive

It was **decided to delay** the plans until next term.

Just got back from my student rep meeting – all about the new school sports building. It's going to be at the back of the school where the old car park used to be. The builders say that they'll start work in the summer holidays. So, who knows – it might be ready for the new term!

The facilities are going to be great. There's going to be a new indoor swimming pool with changing rooms. Next to that, they hope to have a big room for indoor games like table tennis and badminton. Brilliant!

The school's got the money for the building, but they need us to raise some money for equipment. We talked about having a talent competition and maybe a sponsored walk. We're hoping students will give us some more ideas for fundraising and we can talk about those at the next meeting.

Must write up my report now,

Student representatives meeting

Stoneb

Posted on 9 January at 9:03 AM

Hi everyone,

As you know, I'm your Student Representative for this year and I'm going to a big meeting on Thursday, where we'll be discussing school social events for the summer term. One of these will be an important charity event to raise money for the local children's hospital.

If you've got anything you'd like me to say at the meeting, please email me and I'll try to mention it on Thursday.

I'll upload my report of the meeting next week.

Remember: my job is to represent you, so let me know what ideas you've got! Mandy

School meeting about summer social and charity events

Report by Mandy Collins, Year 10 Student Representative

- The aim of this report is to inform Year 10 students of the summer social events that were discussed at the recent school meeting and to recommend action that needs to be taken.
- B The school will fund end-of-year parties for each year group. These will be organised by students in those classes. The parties should be held at school in the week before the end of term and could take place at lunchtime, after school or in the evening. We have decided to hold another summer barbecue near the river. Any ideas for a theme for the barbecue from students would
- be welcome There will be another charity event in June to raise money for Belford Hospital. It is hoped that this year the school can raise even

more money than last year. Each year group is asked to put forward an idea that they can organise for the day.

The meeting was very informative and several of Year 10 students' ideas were considered. Students should now think about what we can do for the charity event. Any suggestions should be posted on the website.

1.8 Language in focus

I can use -ing forms in a range of different contexts.

1 Read the information about -ing forms and match uses 1-6 with examples a-f from this unit.

All -ing forms express some sense of 'ongoing activity'. -ing forms can be used as verbs (I'm learning Spanish.); as adjectives (The lessons are boring.); or as nouns (Reading is easier than listening.).

- 1 Use -ing forms in continuous tenses.
- 2 Use -ing forms after certain verbs.
- 3 Use -ing forms in certain adjective/noun constructions.
- 4 Use -ing forms after prepositions.
- 5 Use -ing forms to describe people or things.
- 6 Use -ing forms as the subject or object of a sentence.
- a Learning is remembering. d ideas worth spreading
- **b** Nadal keeps **winning**.
- **e** She's always **disturbing** people. c a shocking piece of news f I'd be good at recognising criminals.
- 2 Translate examples a-f in Exercise 1. What are the differences between your language and English?
- 3 Use the prompts to write sentences with the -ing form. Which sentences do you agree with?
 - 1 know how to type / useful skill
 - Knowing how to type is a useful skill.
 - 2 take exams / very stressful
 - 3 watch TV / waste of time
 - 4 copy your friend's homework / cheat
 - 5 always be late / annoy habit
 - 6 not have breakfast / bad for you
- 4 Read REMEMBER THIS. Then complete the sentences using the words in brackets. Add but add any other words necessary.

REMEMBER THIS

Certain adjective/noun constructions begin with it or there. It's nice being here. Is there any use trying to explain?

1	1 It's (no/good/talk) to her	– she never listens.
2	2 Is it (worth/buy) that textbo	ook? All the information is online
3	3 It's (no/use/complain) abo	out your exam results. You
	didn't revise!	
4	4 There's (no/point/discuss) this any more. I've made up
	my mind.	

Complete the questions with the correct form of the words in the box. There are two extra words. Then answer the questions.

MAKING SCIENCE POPULAR

By Nicholas Booker

Science is one of the most difficult subjects and even (study) students sometimes struggle to solve scientific problems. If you want a book that makes science more ² I can recommend Bill Bryson's A Short history of Nearly Everything. Full of amusing anecdotes and stories about quantum mechanics, evolution, astronomy and chemistry, it's a book that will satisfy your thirst for ³ (know) and help you to (vision) certain scientific processes. The author brings science to life by, for example, giving a graphic and entertaining description of the universe. This is both a well-written book and a highly enjoyable one. Not 5 (surprise), it is considered a must-read by many.

6 Complete the second sentence so that it has a similar meaning to the first, using the word in capitals. Do not change the word in capitals.

READING

7 Read the text and choose from the sentences (A–E) the one which fits each gap. There is one extra sentence.

AT THE BEIJING DANCE ACADEMY 舞蹈學院

from Mao's Last Dancer, by Li Cunxin

Those first few weeks at the Beijing Dance Academy were an agony of loneliness. Nights were the worst. I couldn't wait to get to bed so I could clutch onto my niang's* quilt, my only security.

I knew I had no choice but to stay in Beijing. My parents, my brothers, relatives, friends, my old school teachers and classmates, my village and commune, all of their wishes and expectations made it impossible for me to go back.

My success was my parents' only hope of breaking that vicious cycle of poverty. I couldn't let them down, even if I did feel trapped in a cage of rules and routines. Every day I couldn't wait for the year to end so I could return home to see my family and roam the streets and fields once more.

I wasn't alone in missing home. I witnessed many teary eyes among my fellow classmates. The girls sobbed more than the boys. ²____ The boys would be told that crying was a sign of weakness. [...]

Our first weeks weren't made any easier when a virus swept through the school. I was among those who had the severe cough, sore throat and high fever. ³___ I offered to share it with some of my classmates but it was as though I'd offered them poison. I lost a few friends over that, but I did notice that their symptoms lasted much longer than mine. [...]

One of the treats at the academy once a month was watching documentaries and occasionally a movie. All the foreign films were from other communist countries. A North Korean movie I remember particularly well was about a young man who had lost his ambitions for the communist cause, and a beautiful girl, a Communist Youth Party member, who helped him and fell in love with him. What I enjoyed most about this movie wasn't the politics but the love story. ⁴___ I imagined that if I performed badly enough in class, the political head might send this girl to help me, but the longed-for love never materialised.

*niang: grandmother

A Naturally, I did what my niang would have done – I took out a few pieces of my precious dried snakeskin and wrapped a green onion in them.

- **B** We knew what we had to do and there was a great determination amongst every boy and girl to succeed.
- C The loss of face would be unbearable. It would damage my family's reputation forever.
- **D** Our political heads and teachers showed more tenderness towards the girls.
- E For the next couple of weeks I started to behave differently towards the captain of the girls' class, a pretty Qingdao girl with big, bright eyes.

LISTENING

8 CD-1.25 MP3-25 Listen to four people talking about classes they attend. Match questions A–F with speakers 1–4. There are two extra questions.

Which speaker:

Speaker 1 A wants to develop a professional goal?Speaker 2 B is struggling with the amount of work on

Speaker 3 the course?

Speaker 4 C is motivated by feedback from the tutor?

D is concerned about other students' motivation?

E is thinking of quitting the course?

F is surprised by the attitude of the tutor?

SPEAKING

9 In pairs, complete the speaking task.

Student A, your photos show people of different ages learning new things. Compare the photos and say how difficult it can be to learn new things at these ages.

Student B, do you prefer to learn by studying or by doing?
